DETAILED ACTION

1. This communication is in response to the arguments filed on 11/27/06.

Claims 1-20 are pending in this Office Action.

In page 12 (Remarks) applicant's disagree with Examiner's assertions same rationale rejection. Based on applicant's arguments restriction is required for more than one invention of claims.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-18 are drawn to accessing data in non-relational database, classified in class 707, subclass 2.
- II. Claim 19 is drawn to accessing hierarchical data in a non-relational database, classified in class 707, subclass 101.
- III. Claim 20 is drawn to computer program code, classified in class 717, subclass 141.

The inventions are distinct, each from the other because of the following reasons:

Inventions in Groups I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention in Group I has separate utility such as accessing data in non-relational database. See MPEP §

Art Unit: 2166

806.05(d). Invention in Group II has separate utility and accessing hierarchical data in a non-relational database. Also Group III has separate utility such as computer program code.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purpose as indicated is proper.

Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement has been traversed (37 CFR 1.143).

Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Response time for this office action is one month (30 days).
